Planner Seller Starter Checklist

From export to a live listing:

1. Export your planner (digital + print interiors).
2. Check every hyperlink before you list.
3. Write a clear title with the planner type + audience.
4. Upload a clean preview (cover + 2 inside pages).
5. Price against similar planners, not against cost.
6. Publish, then share one listing link per day.

A Pickzox reader bonus — original guide, not affiliated with PlanPress Studio or WarriorPlus.
