50 Wedding Suite Style Combinations

Ready-made theme + art style + palette + layout mixes for the Wedding Suite Prompt Builder — every combination uses only the real options inside the app. Pick a row, run the 5 chained prompts, finish in Canva, list on Etsy.

How to use this list

Start with rows 1–10. They are the safest sellers: classic themes, soft styles and neutral palettes that suit most weddings. Rows 11–30 are seasonal and niche looks — use them to stand out in a crowded search. Rows 31–50 are bold and modern — list them as a second suite in the same shop so one buyer can compare. One row = one suite. Never mix two rows into one listing; the whole point of the app is that all 8 pieces match.

Tip: run the Agent Prompt for a row only after you have tested the 5 chained prompts once. The Agent Prompt is the fast path, but the chained prompts teach you how each piece should look.
