50 Printable Pack Ideas for Etsy

Fifty ready-made pack ideas for Hearthplay Studio. Each row has a theme, a player mix and a holiday or occasion. Pick a row, build the pack, finish the listing and sell it. Themes match the 60 themes inside the app; player mixes use the Grandparent & Me, Parent & Me, siblings, whole-family and Just Me options.

How to use this list: start with the holidays that are 6-8 weeks away, so your listing is live before buyers search. Build one pack per idea. One idea that sells beats ten ideas that sit in a folder.

Tip: reuse a winning player mix across themes. If "Grandparent & Me" sells for Christmas, it usually sells for Easter and Thanksgiving too. Check the Trademark Guard warning before you use any character or brand name in a theme, and keep your own shop style consistent across packs so buyers recognise your shop.
