Telegram Money-Making Methods Worksheet

Compare the four ways a Telegram channel earns. Score each method for YOUR channel (1 = poor fit, 5 = great fit), then pick the one you will start with. This worksheet shows the math — it makes no earnings promise.

The four methods

Method	Effort	Speed	Your score (1–5)
Digital products (your own)	Medium — build once, sell many times	Slow at first	___ / 5
Amazon affiliate offers	Low — post links to products	Fast to start	___ / 5
Telegram Stars	Low — fans pay inside Telegram	Medium	___ / 5
Paid channel / membership	High — needs a loyal audience	Slow	___ / 5

Your three-price test

Before you list anything, answer these three questions in writing:

- ■ What is the cheapest price a buyer would still take seriously?
- ■ What is the fair price for the value you deliver?
- ■ What is the premium price for your best buyers — and what extra do they get?

Your pick for this month

Method I will start with: _____

Why it fits my channel: _____

First post date: _____ First product or offer: _____

Honest note: no worksheet can promise earnings. A channel earns when subscribers trust it and keep coming back — the method is only the vehicle.
